

# EUROPEAN LEGAL FORUM – 2026

February 22, 2026  
Bern, Switzerland

The International Research Institute for Diplomacy, Education, and Peace Studies, the Alliance for Traditional Values and Religious Freedom, the Academy of Ecosocial Technologies, the Navrstvennoral Solidarity International Movement, and the Peacekeeping Force “Green Helmets” held the 2026 European Legal Forum online in Bern, Switzerland.

The European Charter of Navrstvennoral Solidarity and the Declaration of the Navrstvennoral Path of Humanity, which presents a global humane social project for the peoples of Europe and the world, were submitted for discussion to European society.

The Global Humane Social Project of the Navrstvennoral Path of Humanity invites all inhabitants of planet Earth to apply a new ethic in their personal behavior and the regulation of social relations, linked to the Global Ecological Principle (GEP): people do no harm to people and the environment. Every person becomes essential to society and the state. Normal people limit the arbitrary exercise of those without conscience in public authorities with the help of ecosocial technologies.

The Regulations for the International Nomadic Games Committee of the Nomadic and Sedentary Peoples of the World were submitted for discussion and evaluation at the 2026 European Forum. The topics for doctoral dissertation research aimed at restoring the system of international law, based on a new ethic based on the global ecological principle: man does no harm to man and the environment, have been submitted for approval.

An important focus of the forum is protecting the European and global community from epidemics of sociopathy and psychopathy, which draw citizens into destructive criminal practices, attacks on human rights and freedoms by administrative criminal groups (ACGs), and further lethal and destructive wars in Europe.

Forum format: remote, in absentia.

Forum date: February 22, 2026.

Contact for feedback and suggestions: [globalnrv@gmail.com](mailto:globalnrv@gmail.com)

### **European Legal Forum Resolution 2026**

To meet the social demand for freedom and justice, endorse the European Charter of Nravstvennor Solidarity and the Declaration of the Nravstvennor Path of Humanity, and recommend to the peoples of Europe and the world a global social project for the Nravstvennor Path of Humanity.

The global humane social project for the Nravstvennor Path of Humanity invites all inhabitants of planet Earth to apply a new ethic in their personal behavior and the regulation of social relations, linked to the global ecological principle (GEP): people do not harm people or the environment. Every person becomes necessary to society and the state. Normal people limit the arbitrariness of those without conscience in public authorities with the help of eco-social technologies.

Approve dissertation research topics for lawyers-peacekeepers and support the "Games of Nomadic and Sedentary Peoples of the World" project.

Approve the activities for the benefit of the peoples of Europe and the world of the International Nomadic Committee of the Games of Nomadic and Sedentary Peoples of the World under the auspices of the UN and the Peacekeeping Force "Green Helmets".

In order to participate in the practical implementation of the global humane social project of the nravstvennor path of humanity, it is recommended that interested citizens, organizations, leaders and officials of public authorities interact with the International Movement "Nravstvennor Solidarity", the International Nomadic Committee of the Games of Nomadic and Sedentary Peoples of the World under the auspices of the UN and the Peacekeeping Force "Green Helmets".

**The nravstvennor path of humanity is the path of peace and creation!**

**A new ethic for regulating social relations and restoring national and international law is based on the global ecological principle (GEP): humans do no harm to humans or the environment.**

**The application of new ethics in private, public, governmental, and international relations ensures security, peace, and prosperity. A different ethic leads to confrontation, war, destruction, mass deaths, and the violation of civil rights and freedoms.**

**Traditional games of sedentary and nomadic peoples of the world are a way of mutual enrichment of national cultures without harming their own identity.**
